

LIGHTS OUT FOR SEA TURTLES

Welcome to Volusia County. We are fortunate to share this very special part of Florida with several species of threatened and endangered sea turtles.

Sea Turtle season is from May 1 through October 31.

During this time female turtles come ashore to lay their eggs in the dry sands above the tide line. About two months later the baby turtles (hatchlings) emerge from their nest and instinctively race to the ocean. Lights adjacent to the beach often confuse hatchlings and lead them away from the ocean toward a certain death.

Please help us reduce this risk and comply with all local and county lighting regulations. Keep balcony lights turned off during the nesting season. Also, draw blinds or drapes at night when any rooms facing the beach are on. These few simple steps will greatly increase the chance that baby turtles will safely reach their home in the sea.

Thank you for your understanding and cooperation.

Seawinds Pool Regulations
